

# M. BHAYAZIID AMALIN

Undergraduate Student

**Phone:** +6281378851993

**Email:** mbhayaziidamalin@gmail.com

**Website :** Bhayazeed.github.io

**Date of Birth:** 09/30/2004

**Gender:** Male

**Address:** Jl. Sulawesi, Pekanbaru,Riau.

**Nationality:** Indonesia

As a student in Informatics Engineering, I'm passionate about using my technical skills and love for innovation to make a difference in the rapidly changing tech industry. I'm committed to ongoing learning and adaptation, which allows me to anticipate and solve challenges. I'm eager to work with organizations that value cutting-edge technology and contribute my knowledge to their success.

## Education

|                |   |                       |
|----------------|---|-----------------------|
| September 2022 | <b>Informatics Engineering - Universitas Islam Riau</b> |                       |
| Till Date      | Bachelor Of Engineering                                 | Pekanbaru, Indonesia. |

## Skills

- HTML
- CSS
- Javascript
- PHP
- MySQL

## Experience

|               |   |  |
|---------------|---|--|
| December 2023 | <b>GDSC HACKFEST 2024 Participant</b>   |  |
| January 2024  | As a member of TEAM ECHO in GDSC Hackfest 2024, I worked with my team to build a prototype device for agriculture. We aimed to make farming easier by including features such as soil nutrient sensing, tracking temperature and humidity, spraying disinfectant, and predicting rain likelihood. In this project, I acted as an Android and backend developer, helping create the prototype application. |  |
